INTERDISCIPLINARY STUDIES IN INFORMATION DESIGN AND STRATEGY, ADVANCED GRADUATE CERTIFICATE

This interdisciplinary certificate prepares students to step into a cross-functional or leadership role by developing a deep and holistic understanding of today’s sophisticated digital media. The program is particularly useful for people in creative fields who want a stronger grounding in business strategy, so that they can expand their career opportunities and make a larger impact on their organizations. The strong theoretical framework of the program and its focus on fundamental concepts makes the degree applicable to many diverse fields and types of organizations — business, the arts, government, healthcare, and education, to name a few — regardless of changes in technology.

Applicants must possess a graduate degree in order to be considered for this program.
