IPLS 492-0 Special Topics (1 Unit)

The course considers the relation between art, culture, and society as it has been conceived, problematized and reconceived over time. The course will also prepare students for graduate work in literary and cultural studies with a focus on academic genres of writing and research methods.

Pursue an interdisciplinary course of study allowing intensive examination of the culture, society, political system, and other aspects of the United States. Students may engage in comparative study of history, literature, visual media, or other materials produced by and helping to constitute American culture.

Digital Studies is a diverse and growing interdisciplinary field in which humanistic inquiry is enhanced and redefined by the possibilities of digital tools for the researching, analysis, publishing, distribution, and consumption of scholarly work. Pursue research topics of personal interest in literature, history, and visual culture using a variety of digital resources and analytical methods in the context of the most current theoretical discussions about the digital in the humanities.

Weekly topics include: digital annotation and database construction for hermeneutic interpretation; and platforms and social media for building; data and archives; network analysis; glitching and deformance close reading; “distant reading” tactics; digital mapping and timeline building.

Digital Studies, Advanced Graduate Certificate

Pursue a broadly interdisciplinary course of study focusing on the comparative analysis of belief. Students will expand their knowledge of both religious and ethical systems and of the lived experience of religion. The relationships between faith, morality, and social context will also be considered.
