COMMUNICATION SCIENCES AND DISORDERS (CSD)

CSD 301-DL Anatomy and Physiology of the Vocal Mechanism (1 Unit)
Anatomical and physiological mechanisms of breathing, phonation
and articulation. Laboratories include dissection and participation in
physiological research.

CSD 305-DL Phonetics (1 Unit)
Introduction to phonological analysis, dynamics of articulation and
dialect variations, focusing on training in transcription of English speech
sounds.

CSD 318-DL Introduction to Audiology (1 Unit)
Introduction to the measurement of hearing in humans, covering the
basic anatomy of the ear, measurement of hearing, potential disorders of
hearing. Lecture/laboratory.

CSD 319-DL Aural Rehabilitation (1 Unit)
Fundamental aspects of clinical aural habilitation for hearing impaired
adults and children. The acoustical, educational, emotional, and
psychosocial impact of hearing impairment.

CSD 392-DL Language Development Usage (1 Unit)
Development of spoken and written language as it relates to child
development, including phonological, morphological, syntactic, semantic
and pragmatic components. Cultural and individual linguistic diversity.

CSD 465-DL Hearing Impairment (1 Unit)
Principles and practices in rehabilitation of children and adults, including
the use of sensory aids, counseling, and communication remediation,
emphasizing speech reading and auditory training techniques.
