INTRODUCTION TO PSYCHOLOGY (PSYCH 110-CN)
A survey course reviewing primary psychological research and theories of human behavior. Carries social science credit.

INTRODUCTION TO PSYCHOLOGY (PSYCH 110-DL)
A survey course reviewing primary psychological research and theories of human behavior. Carries social science credit.

INTRODUCTION TO PSYCHOLOGY (PSYCH 111-CN)
NPEP course.

STATISTICAL METHODS IN PSYCHOLOGY (PSYCH 201-CN)
Measurement; descriptive statistics; probability and sampling; T-test, ANOVA, correlation, and regression. May not be audited. Carries social science or science credit.
Prerequisite: PSYCH 110-CN and high school algebra.

STATISTICAL METHODS IN PSYCHOLOGY (PSYCH 202-CN)
NPEP course.

RESEARCH METHODS IN PSYCHOLOGY (PSYCH 205-CN)
Methods of psychological research; experimental design; reliability and validity; review and application of statistics; execution and reporting of psychological research. May not be audited. Carries social science credit.
Prerequisite: PSYCH 201-CN.

INTRODUCTION TO NEUROSCIENCE (PSYCH 212-CN)
Designed for students with no prior coursework in neuroscience or biology. Neurophysiology and neuroanatomy; neuroscience of perception, emotion, morality, memory, mental illness, and consciousness. Carries science credit.

SOCIAL PSYCHOLOGY (PSYCH 213-CN)
Psychological processes underlying social behavior; topics include social cognition, attraction, aggression, prejudice, and behavior in groups. Carries social science credit.
Prerequisite: PSYCH 110-CN.

SOCIAL PSYCHOLOGY (PSYCH 213-DL)
The purpose of this course is to introduce students to important theory, research, and methodologies in social psychology. Social psychologists examine how people interpret the social world and investigate the influence of the social environment on individuals' thoughts and behaviors. We will examine classic topics in social psychology: social cognition, social influence, conformity, group processes, helping, and prejudice. There will be a strong emphasis on methodology and the ways in which study design affects both the research questions one can answer and the conclusions one might draw. Because social psychologists sometimes investigate "everyday" behavior, students often believe that they can rely on intuition or common sense to learn about social psychology. Unfortunately, one core finding in social psychology is that common sense can be misleading at best and seriously biased at worst. Thus, this course will focus on how the scientific method helps to provide empirical answers to questions about humans and their social world.

PSYCHOLOGY OF PERSONALITY (PSYCH 215-CN)
Prerequisite: PSYCH 110-CN.

COGNITIVE PSYCHOLOGY (PSYCH 228-CN)
Introduction to research into mental processes such as memory, reasoning, problem solving, and decision making. Carries science or social science credit.
Prerequisite: PSYCH 110-CN.

DEVELOPMENTAL PSYCHOLOGY (PSYCH 244-CN)
Development of cognitive, social, and other psychological functions. Carries social science credit.
Prerequisite: PSYCH 110-CN.

PSYCHOLOGY OF PERSONALITY (PSYCH 215-CN)
Understanding the nature of psychological, emotional, and behavioral disorders. Emphasis on current evidence regarding causes and characteristics of these disorders. Carries social science credit.
Prerequisite: PSYCH 110-CN.

INTRODUCTION TO CLINICAL PSYCHOLOGY (PSYCH 306-CN)
Definition and history of clinical psychology, personality theory in clinical psychology, diagnosis and classification of disorders, assessment, psychotherapy, and ethical issues. Carries social science credit.
Prerequisite: PSYCH 110-CN. Completion of PSYCH 303-CN is recommended.

TOPICS IN SOCIAL/CLINICAL/PERSPECTIVES (PSYCH 309-CN)
Survey of social psychological research on attitudes; focus on the formation of attitudes, the relationship between attitudes and behavior, and attitude change. Carries social science credit.
Prerequisite: PSYCH 110-CN.

SPECIAL TOPICS IN SOCIAL/CLINICAL/PERSPECTIVES (PSYCH 310-CN)
Topics vary. May be repeated for credit with different topic.
Prerequisite: PSYCH 110-CN.

PSYCHOLOGY OF ATTITUDES (PSYCH 311-CN)
Survey of social psychological research on attitudes; focus on the formation of attitudes, the relationship between attitudes and behavior, and attitude change. Carries social science credit.
Prerequisite: PSYCH 110-CN.

RELATIONSHIP SCIENCE (PSYCH 313-CN)
Social-psychological analysis of close relationships, with an emphasis on romantic relationships. Interpersonal processes associated with relationship formation, development, and dissolution. Carries social science credit.
Prerequisite: PSYCH 110-CN.

THE HOLOCAUST: PSYCHOLOGICAL THEMES & PERSPECTIVES (PSYCH 317-CN)
Explores how particular psychological theories and concepts inform understanding of the events of the Holocaust. Includes material from fields of social and clinical psychology. Carries social science credit.
Prerequisite: PSYCH 110-CN.

PERCEPTION (PSYCH 324-CN)
Human perception, particularly vision but also hearing, taste, smell, and touch. Biological foundations, development, and disorders of perception. The senses in everyday life. Carries science or social science credit.
Prerequisite: PSYCH 110-CN.

BRAIN DAMAGE AND THE MIND (PSYCH 328-PP)
Examines the application of psychology to law, including topics such as the insanity defense, criminal profiling, eyewitness testimony, and interrogation. Carries social science credit.
Prerequisite: PSYCH 110-CN.

Evolutions in Psychology (PSYCH 342-CN)
Topics vary. May be repeated for credit with different topic.
Prerequisite: PSYCH 110-CN.
Psychology (PSYCH)

Theory, methodology, and empirical data related to how evolution has influenced human psychology and behavior. Emphasis on mating. Carries science or social science credit.

Prerequisite: PSYCH 110-CN.

PSYCH 343-CN Psychology of Beauty (1 Unit)
Theory, methodology, and empirical data related to the psychological impact of human beauty. Emphasis on both cultural and evolutionary perspectives. Carries social science credit.

Prerequisite: PSYCH 110-CN.

PSYCH 344-CN Cultural Psychology (1 Unit)
Introduction to concepts and empirical methods used to study how culture shapes mind, brain, and behavior over multiple time scales, including over generations and the lifespan and across situational contexts. Carries social science credit.

Prerequisite: PSYCH 110-CN.

PSYCH 345-CN Psychology and Law (1 Unit)
NPEP course.

PSYCH 346-CN Stereotyping & Prejudice (1 Unit)
Analysis of the causes and consequences of stereotyping and prejudice, as well as methods used to study these issues. Students conduct original research. Carries social science credit.

Prerequisite: PSYCH 205-CN.

PSYCH 347-CN Human Memory (1 Unit)
Scientific study of human memory, including memory systems of the brain, amnesia, remembering, forgetting, encoding, consolidation, memory suppression, and memory distortion. Emphasizes original research reports in cognitive neuroscience. Carries social science credit.

Prerequisite: PSYCH 205-CN; or consent of instructor.

PSYCH 349-CN Psychological Tests & Measures (1 Unit)
Explores the science of psychological assessment, including its history, test construction and evaluation, and common measures of personality, psychopathology, and ability. Students create and evaluate their own psychological measures. Carries social science credit.

Prerequisite: PSYCH 110-CN.

PSYCH 350-CN Topics in Psychology (1 Unit)
Topics vary. May be repeated for credit with different topic.

PSYCH 354-CN Deception: Processes and Detection (1 Unit)
Multiple perspectives on truth and deception. Exposure to clinical and psycho physiological work on lying, malingering, and styles of deceit. Theories and methods in lie detection. Carries social science credit.

Prerequisite: PSYCH 110-CN.

PSYCH 366-CN Decision Making (1 Unit)
Human decision making from both descriptive and prescriptive perspectives. Theories and models of decision making applied to a variety of contexts. Carries social science credit.

Prerequisite: PSYCH 205-CN, PSYCH 228-CN.

PSYCH 367-CN Child Psychopathology (1 Unit)
Major forms of psychopathology present during childhood, including disorders exclusive to childhood and those that may appear during any developmental period. Developmental models of the etiology and course of major psychopathologies. Carries social science credit.

Prerequisite: PSYCH 205-CN; PSYCH 244-CN or PSYCH 303-CN.

PSYCH 368-CN Psychological Tests & Measures (1 Unit)
Explores the science of psychological assessment, including its history, test construction and evaluation, and common measures of personality, psychopathology, and ability. Students create and evaluate their own psychological measures. Carries social science credit.

Prerequisite: PSYCH 110-CN.

PSYCH 399-CN Independent Study (1 Unit)
