## About the Thesis

Students sign up for the final course in the program during the term in which they start their master’s thesis. The capstone project for the MALS program is an essay of 45 to 60 double-spaced pages written under the supervision of an approved faculty member. The project presents an opportunity to research and explore a topic thoroughly. Students often elect to expand a seminar paper from a previous course. With the approval of the program director, students may create an interdisciplinary final project rather than a traditional thesis.
