

# REGULATORY COMPLIANCE, MS HEALTHCARE COMPLIANCE SPECIALIZATION

Gain a strong grounding in healthcare laws and regulations and learn the basics of healthcare billing and payment and corporate compliance. Graduates of the Healthcare Compliance specialization are able to employ their compliance knowledge at both a systems and discrete level. For example, they will be able to assess and manage compliance programs; develop compliance dashboards and conduct and respond to audits; and screen and evaluate vendors.

## About the Final Project

Students pursue their capstone experience independently or as part of a team. As their final course, students take either the individual research project in an independent study format or the classroom final course in which students integrate the knowledge they have gained in the core curriculum in work assigned by the instructor. In both cases, students are guided by faculty in exploring the body of knowledge on regulatory compliance while contributing research of practical value to the field. The

capstone independent project and capstone class project count as one unit of credit.
