GENERAL REGISTRATION POLICIES

Transferring to Another SPS Program

Undergraduate

Undergraduate students who wish to make changes in any of the following categories should submit an Academic Plan Form:

- Bachelor degree programs
- Major
- Minor

Students who wish to transfer into the Business Leadership Program should speak to their advisor first and submit an updated resume and statement of purpose, explaining how their professional experience can help them contribute to the program.

Post-Baccalaureate

In most cases, students can change their certificate program simply by submitting an Academic Plan form. However, those students who wish to change a program that falls within Professional Health Careers should also submit an updated statement of purpose, explaining why they seek to change certificates and how that will meet their professional goals.

*Please note: If you are in a degree seeking or certificate program within SPS, you cannot pursue any other program or certificate within Northwestern or SPS until you have completed your current program.

Curriculum Requirements

Before students select courses, they must make sure to check the curriculum requirements in place at the time of initial enrollment into the degree or certificate program. Undergraduate students can find this information on the credit evaluation issued to them at the time of admission (or as an update to the credit evaluation from the SPS Registrar’s Office). For post-baccalaureate students, this is the list of courses initially agreed upon with an advisor at the time of admission. Post-baccalaureate students who wish to change their planned curriculum may submit a petition to the Student Affairs Committee explaining their reasons for doing so.

Course Registration

Students should consult the undergraduate course listings (https://sps.northwestern.edu/part-time-undergraduate/view-all-courses.php) for the most up-to-date information. Course descriptions, instructor information, day/time and campus information, term start and end dates and prerequisite courses are listed. Students register for all courses through CAESAR (https://www.caesar.northwestern.edu).

Room assignments are available at least one week before the quarter begins, and can be viewed in CAESAR (https://www.caesar.northwestern.edu) or with the SPS course schedule page (https://sps.northwestern.edu/part-time-undergraduate/view-all-courses.php).

Students may register for courses from the time registration opens (approximately six to eight weeks before the quarter starts) until the end of the registration period (the Friday of the first week of classes). The late registration period begins approximately two to four weeks before the term starts and continues until the end of the registration period.

Registering for courses during this period adds $75 late registration fee. Exact dates of registration periods are found in the SPS Undergraduate Academic Calendar (https://catalogs.northwestern.edu/sps/academic-calendar/#undergraduatetext).

Students are responsible for adhering to registration deadlines. It is the student’s responsibility to register and, if necessary, drop classes by the posted deadlines. No one will complete this for the student except in cases where a course is cancelled.

SPS encourages students to register for courses as early as possible during the registration period. Early registration helps SPS schedule courses more effectively for students. Students who delay registration may find that under-enrolled courses will be cancelled close to the start of the quarter.

If registration questions or problems arise, please contact the SPS Registrar’s Office at onlinereg@northwestern.edu or 312-503-6951.

*Please Note: Students will not earn credit for courses in which they are not officially registered, nor should they attend courses where they are not officially registered.

Taking More than Two Courses in a Quarter

SPS undergraduate and certificate programs are designed to be completed part-time to accommodate the busy schedules of working adults. If the schedule of a student who is not on Performance-Based Admission allows, they may take up to four courses in a quarter. PBA degree students are limited to two courses until formally admitted.

CAESAR limits self-service registration to two courses. To register for more than two courses, students must contact the SPS Registrar’s Office at onlinereg@northwestern.edu to request that their enrollment limit be lifted. This request must be made before students attempt course registration on CAESAR or they will have to register for their fourth course by submitting a change of registration form.

Prerequisites

Prerequisites indicate the expected background for a course. If no prerequisite is noted, none is required. 300-level courses (any course numbered 300-399) are generally designed for junior and senior standing and in all cases assume prior experience with University courses. If students are just entering Northwestern or returning after an absence, they should take 100- or 200-level courses before attempting 300-level courses, even when no prerequisites are noted.

Students are responsible for being aware of course requirements. Students can request a course summary from the SPS Registrar and discuss course requirements and sequencing with their advisor (https://sps.northwestern.edu/student-services/), but it is the student’s responsibility to enroll in the courses required or appropriate for their program. They should look carefully at the requirements for their program and, with their academic advisor, should plan ahead to complete required and prerequisite courses.

Course Cancellation

The University reserves the right to cancel classes when necessary, including those for which registration is not sufficient. Students will be notified by their academic program once the course has been cancelled and will be dropped from the course by the SPS Registrar’s Office.
Dropping Courses
Dropping a course refers to the student removing themselves from enrollment. Students who drop all their courses for a given quarter are sometimes referred to as “withdrawing” from the academic quarter. At SPS, this simply indicates that an active student is not enrolled for that quarter, not that the individual is no longer a student.

How to Drop a Course During the Registration Period
Students can drop a course via self-service in CAESAR until the end of the registration period for the term (until roughly the end of the first week of the term, exact dates found on the SPS Undergraduate Academic Calendar (https://catalogs.northwestern.edu/spa/academic-calendar/undergraduate.html)). To drop a course after the registration period and prior to the drop deadline, students must submit a Change of Registration form (https://sps.northwestern.edu/main/forms-and-documents.php) to the SPS Registrar's Office in order to withdraw from the course. The SPS Registrar’s Office will accept this form by email at onlinereg@northwestern.edu, providing it is sent from the student’s Northwestern email account. Dropped classes prior during this time will not appear on the student’s official transcript but are subject to Refund policy.

How to Drop a Course During the Term
After the end of the registration period, students may request to drop a course until the drop deadline (roughly at sixth week of the term, exact dates found on the SPS Undergraduate Academic Calendar (https://catalogs.northwestern.edu/spa/academic-calendar/undergraduate.html)). To drop a course after the registration period and prior to the drop deadline, students must submit a Change of Registration form (https://sps.northwestern.edu/main/forms-and-documents.php) to the SPS Registrar's Office in order to withdraw from the course. The SPS Registrar’s Office will accept this form by email at onlinereg@northwestern.edu, providing it is sent from the student’s Northwestern email account. Dropped classes prior during this time will not appear on the student’s official transcript.

Requesting to Be Withdrawn From a Class After the Drop Deadline
In rare cases, a student may request to be removed from a course after the drop deadline. Requests to be removed from a class after the drop deadline is considered a withdrawal. Students may initiate a request for withdrawal by submitting the Change of Registration form (https://sps.northwestern.edu/main/forms-and-documents.php) to the SPS Registrar's Office until the Friday of the week before finals (prior to the date of final exam, project or paper in the particular course has been reached), a date that we will confirm with your instructor. The SPS Registrar’s Office will accept this form by email at onlinereg@northwestern.edu providing it is sent from the student’s Northwestern email account. Dropped classes prior during this time will not appear on the student’s official transcript. All withdrawals after the drop deadline will result in a "W" (withdrawal) grade being posted to the student’s official transcript.

• Undergraduate program students may have up to five W's on their SPS transcript.
• Professional Health post-baccalaureate certificate students may have up to one W's on their SPS transcript.
• All other post-baccalaureate and undergraduate certificate students Professional Health Completion programs may not have any W's on their SPS transcript.

Requests for withdrawals that exceed the noted limits will be denied.

Additional Policies Regarding Dropping a Course
• If a student needs to drop a course, they must officially drop through CAESAR or through the SPS Registrar; it is not sufficient to simply notify the instructor, speak with one’s advisor, or to cease attending to class.

• Students may drop courses without academic or financial penalty during the registration period each quarter. If a student drops a course before the add/drop deadline, they may be eligible for a refund. Please check the SPS Undergraduate Academic Calendar (https://catalogs.northwestern.edu/spa/academic-calendar/undergraduate.html) for registration period dates. For specific information on refunds, contact Student Financial Services (https://www.northwestern.edu/sfs/).
• CAESAR will not allow a student to drop all of their classes in a given term. Students who wish to drop all classes in a given term should use the Change of Registration form (https://sps.northwestern.edu/main/forms-and-documents.php) to request that the SPS Registrar make this change on their behalf. The drop date will reflect the form submission date.
• After the registration period has passed but before the end of the sixth week of the quarter, students may still drop courses without academic penalty. These courses will not appear on transcripts; however, students will not be eligible for a full tuition refund. For specific information on refunds, contact Student Financial Services (https://www.northwestern.edu/sfs/).
• Students who feel that extenuating circumstances may merit an exception to any of the above should submit a Student Affairs Petition (https://sps.northwestern.edu/main/forms-and-documents.php) outlining the reasoning and attach any relevant supporting documentation.

Administrative Drop Policy
It is the student’s responsibility to officially drop/withdraw from classes.

Students who fail to participate in their course(s) during the first two weeks of the quarter without contacting the faculty may be administratively dropped from the course(s). Administratively dropped courses will not appear on the student record and will receive a full tuition refund.

Logging into Canvas does not constitute participation. Non-participation is defined as the following:
• No posts in graded discussion in Canvas
• No graded quizzes submitted in Canvas
• No graded assignment files uploaded to Canvas
And/or
• Zero participation in the course as determined by the faculty member

Student may also be administratively dropped at any time from a course due to the following:

• Student has not met the course prerequisite, co-requisite, or registration restrictions/requirements
• Failing course requirements
• Course cancellations
• Student registration hold lifted at time of payment, and payment subsequently cannot be processed.

Financial aid recipients who drop from a course but remain enrolled in at least one other unit-bearing course for the same academic term may be required to return a portion of their federal financial aid (federal loans and/or grants), state assistance, outside scholarships, and/or institutional financial aid for that term. This return of funding may impact the balance or refund available on your Northwestern student account.
The Office of Financial Aid will review your financial aid enrollment to
determine if a return of financial aid would be required.

Dropping a course may influence your eligibility for federal
and state financial aid in future terms due to the requirements
outlined in the Satisfactory Academic Progress policy (https://
chicagofinancialaid.northwestern.edu/how-it-works/maintaining-
satisfactory-academic-progress/) for your program. For more
information on the impact of dropping a course on financial
aid, contact the Chicago Office of Financial Aid (https://
chicagofinancialaid.northwestern.edu/help/contact/) or visit their
website (https://chicagofinancialaid.northwestern.edu/how-it-works/
enrollment-changes-and-withdrawals/enrollment-changes.html).

Credit Hours

Each course carries one unit of credit unless otherwise noted in the
course description. One unit is equivalent to 4 quarter hours or 2 2/3
semester hours. Students transferring either semester hours or quarter
hours to SPS should speak with the SPS Registrar about how credits are
converted to units.

Course Numbering

- 100-level courses: Foundational, usually without a prerequisite
- 200-level courses: Intermediate, sometimes with the prerequisite of a
  100-level course in the same or a related department
- 300-level courses: Upper-level or, specialized, often with the
  prerequisite of a 100- or 200-level course in the same or a related
department

Distribution Courses

Degree students complete coursework in the humanities, sciences
and social sciences to obtain a broad experience in the liberal arts.
The following areas include courses that satisfy these distribution
requirements:

- Humanities: art history, classics, comparative literary studies, dance
  history, English literature, history, music history, philosophy, religion,
  and some courses in African American studies, languages other
  than English (up to two can be applied as humanities’ requirements),
gender studies, performance studies, radio/television/film, and
theater
- Sciences: astronomy, biological sciences, chemistry, computer
  information systems, computer studies, engineering, geography,
  geological sciences, mathematics, physics, statistics, and some
  courses in radio/television/film, anthropology, and psychology
- Social sciences: anthropology, economics, history, linguistics, political
  science, psychology, sociology, and some courses in gender studies

Performance-Based Admissions (PBA)

Performance-Based Admission students in Bachelor of Science in
Enterprise Leadership, Strategic Communication, Social Sciences,
Information Systems, and Health Sciences must take two composition
courses (ENGLISH 111-CN (https://catalogs.northwestern.edu/
search/?P=ENGLISH%20111-CN) Writing Seminar II/ ENGLISH 111-
DL (https://catalogs.northwestern.edu/search/?P=ENGLISH
%20111-DL) Writing Seminar II and ENGLISH 205-CN (https://
catalogs.northwestern.edu/search/?P=ENGLISH%20205-
CN) Intermediate Composition/ ENGLISH 205-DL (https://
catalogs.northwestern.edu/search/?P=ENGLISH%20205-DL)
Intermediate Composition) and choose two courses from the distribution areas to
fulfill admission requirements. PBA courses must come from at least two
different distribution areas (rather than academic subjects/departments).

Performance-based students in the Bachelor of Science in General
Studies, Bachelor of Philosophy, and Bachelor of Philosophy in
Communication must take one composition course (ENGLISH 111-
CN (https://catalogs.northwestern.edu/search/?P=ENGLISH
%20111-CN) Writing Seminar II/ ENGLISH 111-DL (https://
catalogs.northwestern.edu/search/?P=ENGLISH%20111-DL) Writing
Seminar II ENGLISH 205-CN (https://catalogs.northwestern.edu/search/?
P=ENGLISH%20205-CN) Intermediate Composition/ ENGLISH 205-
DL (https://catalogs.northwestern.edu/search/?P=ENGLISH%20205-
DL) Intermediate Composition) and choose three courses from the
distribution areas to fulfill admission requirements. PBA courses must
come from at least two different distribution areas (rather than academic
subjects/departments).

Writing Requirement

The writing requirement ensures that students have the skills necessary
to meet the rigorous writing demands of subsequent SPS courses
in all majors, degrees, and disciplines. Expository writing courses —
ENGLISH 111-CN Writing Seminar II and ENGLISH 205-DL Intermediate
Composition — provide the tools to meet the demands of advanced
academic writing. These may not be audited or taken on a pass/no credit
basis. Performance-Based Admission students must pass one of these
writing courses during their first four courses.

- Passing ENGLISH 111-CN Writing Seminar II /ENGLISH 111-DL
  Writing Seminar II or ENGLISH 205-CN Intermediate Composition /
  ENGLISH 205-DL Intermediate Compositionwith a grade of C or higher
  satisfies the writing requirement in the Bachelor of Science degree
  program.
- Passing ENGLISH 111-CN Writing Seminar II/ENGLISH 111-
DL Writing Seminar II or ENGLISH 205-CN Intermediate
Composition/ENGLISH 205-DL Intermediate Composition with a
grade of C or higher satisfies the writing requirement in the Bachelor
of Science in General Studies, the Bachelor of Philosophy, and the
Bachelor of Philosophy in Communication programs. Students in
these programs must also complete ENGLISH 113-CN Introduction to
Literature.

Students may also submit an appeal to fulfill the writing requirement. More information on this process can be found on the bottom of the
Degree Requirements page (https://sp
s.northwestern.edu/part-time-
undergraduate/degree-requirements.php#writing) of the SPS website.

Northwestern Courses Outside of SPS

Students who have been admitted to an SPS bachelor’s degree program
or a post-baccalaureate program and wish to pursue academic interests
not available in SPS have the option to pursue possible enrollment in
daytime undergraduate-level courses in other Northwestern schools.
The following policies and procedure apply to all SPS student seeking
enrollment in daytime courses (these policies and procedures do not
apply to Summer Session enrollment):

- SPS does not guarantee enrollment in courses at other schools within
Northwestern University.
- Students are required to meet with their SPS academic advisor
about selection of daytime courses and have the advisor sign the
request form (https://sp
s.northwestern.edu/main/forms-and-
documents.php). Students then will need to submit a Student
To apply and register for Independent Study, a student must
submit a Student Affairs Petition before applying for independent study and must have a
minimum cumulative GPA of 3.0. Eligible post-baccalaureate students must have completed a minimum of 22 units, at least four at
SPS, and must have a cumulative GPA of 3.5 or better. Post-baccalaureate students should have completed at least half of their certificate programs.

• If eligible, students should choose advanced-level courses that supplement their major or degree plans or certificate plans. Courses required for the major are eligible only if the relevant SPS courses have been cancelled and/or are not being offered.
• Students may not register for daytime courses to make up a deficiency resulting from failing or incomplete grades.
• Daytime courses may not be taken P/N.
• SPS students may take a maximum of three day classes (excluding daytime courses taken during Summer Session).

Advanced Study Requirement
Degree-seeking students must earn at least 14 units of courses at the 300 level.

Independent Study
An independent study is a customized course of study undertaken by
a single student under the guidance of an instructor, in the form of an
in-depth research project or creative work. In some circumstances, an
independent study covers the content of a required SPS course that has not been scheduled for three consecutive quarters. Offered under
the course subject and number 399-CN, independent studies are comparable in their demands to other undergraduate-level courses.

To be eligible for an independent study, undergraduate degree-seeking students must have completed a minimum of 22 units, at least four at
SPS, and must have a minimum cumulative GPA of 3.0. Eligible post-baccalaureate students must have completed two courses posted to their
SPS transcripts before applying for independent study and must have a minimum cumulative GPA of 3.0.

To apply and register for Independent Study, a student must

a. Identify an SPS faculty member to supervise the independent study. Students who have questions about choosing an independent study instructor should contact their academic advisor.

b. Develop a syllabus in consultation with their instructor that includes a list of readings, assignments, assignment deadlines and assessment criteria as well as a breakdown of how the grade will be calculated.

c. Submit a completed Application for Independent Study, along with the course of study or syllabus, to the student’s academic advisor by the deadlines stated in the SPS Undergraduate Academic Calendar.

Please Note: The deadline to submit the request for an Independent Study will be prior to the first day of the term.

Additional Policies on Independent Studies

• Undergraduate degree-seeking students may register for no more than four independent studies total and may not register for more than one independent study per term. Post-baccalaureate students are limited to two independent studies total and may not register for more than one independent study per term.

• Students should contact their academic advisor for guidance on the independent study approval process. The advisor should be notified in the case of any changes in registration, including drops.

• Deadlines and policies for typical course registration and enrollment also apply to independent studies.

SPS Identity Verification Policy
The Higher Learning Commission (HLC) accreditation process requires an institution verify the identity of students enrolled in online courses or programs. Methods of verifying identification must be reasonable and include appropriate safeguards to protect a student’s privacy. The following institutional practices are identified by the HLC as acceptable practices for verifying student identity:

• A secure login and pass code
• Proctored examinations and assessment design
• A secure login and pass code
• Proctored examinations and assessment design
• New or other technologies and practices, including audio/visual identification

SPS will implement the following processes to verify student identity in online programs:

Secure Login and Pass Code
In addition to requiring a secure login (NetID) and passcode for enrollment in each course and all associated online coursework (Canvas), students also must sign up for multi-factor authentication (MFA) which provides an extra layer of security before logging into an online service. This ensures that the Net ID holder is the only person who can access their account, even if a password is stolen.

Proctored Examinations and Assessment Design
Proctored examinations are used in select courses, requiring students to confirm their identity prior to taking an exam. While proctored exams will be a part of the strategy (utilizing NU’s approved software and/or internal procedures), alternative strategies will include:

• Question banks for exams
• Reflection and analysis after submission of an assignment
• Assignment-design centered around making unique arguments utilizing the student’s own rationale.
• Changing the assignment prompt details frequently
• Video presentations or video assignment/discussion submissions

New or Other Technologies and Practices: Audio/Visual identification
SPS has instituted additional methods of identity verification utilizing visual identification in at least half of the required courses for a student to complete their online degree program.

All students will be required to obtain a student ID card (Wildcard). The picture submitted for a student’s Wildcard populates the student’s Caesar profile and will be utilized by the faculty member for identity verification.

A selection of online courses will include assignments requiring video submission (such as presentations, proctored exams, and video discussion boards) in which the faculty will compare the student’s official University photo (Wildcard photo) with the person completing the video or proctored assignment. Any potential issues of discrepancy will be reported to the program staff member and the issue will be handled through the academic integrity process. If a student does not have a Wildcard at the start of the term in one of these courses, the student will have a registration hold placed on their account preventing them from enrolling in any future terms until the student obtains a Wildcard.

**Internships**

Internships can provide a great opportunity for students to gain paid or unpaid workplace experience. While SPS does not actively place students in internships, the school encourages students to seek out internship opportunities, either as a supplement to their program or as part of an independent study (399).

While an internship alone cannot be directly counted for credit towards one’s degree, a student can take advantage of the internship’s experience and resources as the foundation of an independent study. To incorporate an internship into an independent study, students should follow the independent study registration procedures and additional policies listed above. In addition,

a. Students should check their academic advisor (https://sps.northwestern.edu/student-services/) for guidance before considering any internship options.

b. Students should write a detailed proposal, articulating specifically what they will be doing, what resources they will have access to at the internship and who will be supervising the internship. This proposal will need to be approved through the SPS Registrar. The student’s academic advisor (https://sps.northwestern.edu/student-services/) can help guide the student through this process.

c. Near the close of the internship, the internship supervisor should email a written evaluation of the student’s performance to the instructor. This evaluation should be based on clearly defined tasks and will factor into the student’s final grade.

**Continuous Enrollment Requirement**

Degree seeking and Certificate students who do not register during the registration period for three consecutive quarters are considered to have “discontinued” their study at SPS. Upon the 3rd quarter of non-enrollment, students will be discontinued/withdrawn from their program at the end of the registration period and deactivated by the CAESAR (https://www.caesar.northwestern.edu) system. In order to be reactivated and take courses again, students must submit the SPS Request for Readmission (https://sps.northwestern.edu/main/forms-and-documents.php). If readmitted, students must follow curriculum that is current at the time of their readmission, which could mean additional units of credit are required for the degree.

Students-at-large will be discontinued after two quarters of non-registration.

**Certificates and Concentrations**

**Online Bachelor of Science Degree Certificate Options**

The modular design of the SPS online Bachelor of Science degree programs enable students to choose one concentration (out of three choices) in their major in addition to the eight core courses. As the concentrations are focused on applied knowledge that will be relevant to workplace needs, students can thus customize their program to match their desired professional path. A concentration is synonymous with a certificate, but the term concentration is used to denote a group of related courses within a degree program as part of major course requirements.

In the Bachelor of Science degree, students are required to take one concentration within the major and one certificate outside of the major. At the time of the Bachelor of Science degree conferral, the concentration and certificate will be noted on the transcript.

If a degree-seeking student drops out of the Bachelor of Science program, the certificate will be awarded only if the major coursework (concentration courses included) and the four-course certificate have been completed. If a student re-enters the Bachelor of Science degree program, the certificate that has been awarded will count toward elective credit.

**Undergraduate Certificates**

**Undergraduate Certificate (no degree).** Undergraduate certificate programs consist of academic course work in four units and are available for students who have not completed an undergraduate degree but are seeking to gain knowledge and skills for professional advancement. Upon successful completion, a certificate is awarded.

**Undergraduate Certificate Later Transferred to Degree.** Students enrolled in an undergraduate certificate can apply for an SPS undergraduate Bachelor of Science degree and, if admitted, transfer the four certificate courses into the degree as elective credit. Students would still need to complete the required major core and concentration courses for the degree, as well as course requirements for an additional certificate as part of their degree.

Undergraduate certificate course work cannot duplicate any of the major core and concentration courses within the Bachelor of Science degree, and cannot be applied to meet major core and concentration requirements within the Bachelor of Science degree. In cases where the content of the certificate matches one of the concentrations within a degree, students must choose another concentration to fulfill degree requirements.

In certain circumstances, students can petition for a course substitute: When completing the Programming Certificate, Artificial Intelligence Certificate, or the Data Science Certificate, a student who has been admitted to the Bachelor of Science in Information Systems can petition to substitute CIS 323-DL Python for Data Science and CIS 324-DL Applied Data Science with two of the following: CIS 212-DL Introduction to Object-Oriented Programming, CIS 385-DL Programming for the Web, CIS 325-DL Enterprise Data Science, CIS 326-DL Data Engineering, CIS 330-CN Human Computer Interaction for the concentration within the major.

When completing the Strategic Management Certificate, a student who wants to register for the Information Systems major can petition to...
substitute ORG_BEH 368-DL Project Management with an ORG_BEH or COMM_ST course.

Certificates Within the Bachelor of Science Programs Concentration and Certificate within Degree Program. Students who begin their SPS studies in the Bachelor of Science program must complete one major concentration and one elective certificate from outside of the major. At the time of the Bachelor of Science degree conferral, the concentration and certificate will be noted on the transcript.

Certificate Possibility for Students Who Drop Out. If a degree-seeking student drops out of the Bachelor of Science program and requests a certificate, it will be awarded only if the major coursework (concentration courses included) and additional four-course certificate have been completed. Upon re-entry into the program, the certificate that has been awarded will count toward elective credit.

Co-Curricular Activities
SPS students are encouraged to participate in SPS affinity groups:

• SPS Student Alliance Board (SAB) for SPS undergraduate, credential-seeking students
• SPS Pre-Health Professional Student Group (NUPP) for SPS professional health post-baccalaureate certificate students
• SPS graduate co-curricular program affinity groups for SPS graduate students

Students must be actively enrolled in courses and admitted to a degree or credential program in order to participate in Northwestern co-curricular activities that are not open to the public.

SPS part-time programs are structured for the working adult and therefore SPS students are not charged the Northwestern University student activity fee. SPS students are to seek counsel from their academic advisor prior to pursuing membership in student groups outside of SPS. Northwestern University student groups, clubs and organizations may have additional membership requirements and fees.

SPS students must seek counsel from their academic advisor prior to pursuing membership in the student groups outside of SPS.

College-Level Examination Program Credit
The College-Level Examination Program (CLEP) allows students to demonstrate knowledge and gain college credit in a variety of areas. CLEP credits can satisfy prerequisites or reduce the number of courses needed for a degree. SPS accepts up to 11 units of credit from CLEP tests. Accepted CLEP credits would count toward the maximum 22.5 credit transfer limit.

Students must submit a petition to the Student Affairs Committee to take a CLEP exam that can be counted toward a degree before registering for the test. It is helpful to consult an academic advisor (https://sps.northwestern.edu/student-services/) before submitting the petition.

The CLEP page of the SPS website (https://sps.northwestern.edu/part-time-undergraduate/clep.php) lists each exam, the minimum score required to receive credit, the units earned for successful completion of the exam and the equivalent SPS course for which students will earn credit. Please note that “1xx” indicates a 100-level course for which there is not an exact SPS equivalent. All official score reports are required to be on file in the SPS Registrar’s Office for credit to be awarded.

Advanced Placement Credit
The College Entrance Examination Board administers AP tests for high school students applying to colleges and universities. In nearly all subject areas, SPS counts a score of 4 or 5 on an AP test as one to two units of credit toward program requirements or electives; please check the Advanced Placement Credit Table (https://weinberg.northwestern.edu/undergraduate/first-year-transfer/first-year/placement-and-credit/ap-and-ib-exams/apib-credit-2023-24.html) for acceptable subjects and scores. AP tests do not satisfy major, minor or foreign language requirements. All official score reports must be sent at the time of application to the Registrar’s Office
339 East Chicago Avenue
Eighth floor
Chicago, Illinois 60611-3008

Scores are required to be on file for credit to be awarded.

International Baccalaureate Examination Credit
Results of higher-level International Baccalaureate examinations are evaluated for possible award of academic credit. A score of 5 or higher on a higher-level IB examination currently receives course credit. All official score reports must be on file in the SPS Registrar’s Office for credit to be awarded.
