BIOMEDICAL ENGINEERING MS

Degree Requirements

The following requirements are in addition to, or further elaborate upon, those requirements outlined in The Graduate School Policy Guide (https://catalogs.northwestern.edu/tgs/academic-policies-procedures).

MS-Only Degree without Thesis

Total Units Required: 12

<table>

<tr>
<td>BMD_ENG 403-0</td>
<td>Advanced Systems Physiology</td>
</tr>
</tbody>
</table>

Quantitative science and engineering courses from approved list or by permission (3 units)

Advanced statistics course from approved list or by permission (1 unit)

Other engineering and science courses (4 units)

Restricted Electives (2 units)

Research Seminar (3 quarters - 0 units):

| BMD_ENG 512-0 | Graduate Research Seminar in Biomedical Engineering |

1. Students who have taken similar physiology courses may petition to take advanced life sciences courses as replacements.
2. Courses in the following areas may not count: research for credit (BMD_ENG 499-0 Projects), global health (except BMD_ENG 380-0 Medical Devices, Disease & Global Health), business, design, NUvention (except for 1 quarter of NUvention Medical), seminar, or survey courses.
3. Students may take design, global health, and business classes to fulfill this category. Students taking a basic statistics course may count it towards this category. Students may opt to take additional math/science/engineering courses to fulfill this category as well.

Other Requirements

• Examinations: none specified
• Research/Projects: either (1) approved project (one quarter minimum of BMD_ENG 499-0 Projects) or (2) three courses with significant project components from approved list
• Other: 7 of the 12 courses must be engineering courses. Restricted electives courses do not count as engineering courses.

MS-Only Degree with Thesis

Total Units Required: 9

Restricted Elective (1 unit)

Research Seminar (3 quarters - 0 units):

| BMD_ENG 512-0 | Graduate Research Seminar in Biomedical Engineering |

1. Students who have taken similar physiology courses may petition to take advanced life sciences courses as replacements.
2. Courses in the following areas may not count: research for credit (BMD_ENG 499-0 Projects), global health (except BMD_ENG 380-0 Medical Devices, Disease & Global Health), business, design, NUvention (except for 1 quarter of NUvention Medical), seminar, or survey courses.
3. Students may take design, global health, and business classes to fulfill this category. Students taking a basic statistics course may count it towards this category. Students may opt to take additional math/science/engineering courses to fulfill this category as well.

Other Requirements

• Examinations: defend master's thesis
• Research/Projects: see master's thesis
• Master's Thesis: required
• Other: 5 out of 9 courses must be engineering. Restricted elective courses do not typically count as engineering courses.
