GENETIC COUNSELING
(GENET_CN)

GENET_CN 401-0 Introduction to Genetic Counseling (1 Unit)
History of genetic counseling and clinical genetics, genetic counseling
skills and process, eliciting patient histories, prenatal diagnosis
counseling, introduction to diagnostic obstetric ultrasound, teratology,
and high-risk obstetrics.

GENET_CN 403-0 Professional Issues in Genetic Counseling (1 Unit)
This course will examine legal, ethical, ethnocultural and other timely
professional issues.

GENET_CN 411-0 Psychosocial Aspects of Genetic Counseling I (1 Unit)
An introductory course to human psychological development and
counseling/interviewing skills as applied to genetic counseling.

GENET_CN 412-0 Psychosocial Aspects of Genetic Counseling II (1 Unit)
Builds on more theoretical coursework from earlier classes and examines
normal and abnormal processes of pregnancy, prenatal diagnosis, birth of
a child, and genetic disease for adolescents/adults.

GENET_CN 413-0 Advanced Genetic Counseling (1 Unit)
Second-year seminar focusing on advanced counseling principles and
skills.

GENET_CN 420-1 Principles of Medical Genetics I (1 Unit)
Basic and complex principles of human heredity, including an
introduction to cytogenetics, molecular technique and mathematical
 genetics.

GENET_CN 420-2 Principles of Medical Genetics II (1 Unit)
Approaches to clinical genetics, dysmorphology, and a variety of genetic
diseases; application of medical and genetic information to genetic
counseling of families.

GENET_CN 420-3 Principles of Medical Genetics III (1 Unit)
Biochemical genetics, immunology, pharmacogenetics, common adult
genetic conditions and treatment of genetic disease.

GENET_CN 421-0 Research Methods (1 Unit)
Planning research projects, questionnaire development, research design,
and approaches to clinical research.

GENET_CN 422-0 Genetics Journal Club (0 Unit)
Regular meetings to review current genetics journals and present articles
of interest relevant to clinical genetics.

GENET_CN 425-0 Adult Genetics (1 Unit)
This class will consider the various adult onset complex disorders,
ways to obtain and interpret family history for complex adult conditions,
specific genetic risk assessment approaches, and ways to communicate
risk to families.

GENET_CN 499-0 Research Project (1 Unit)
Development and presentation of a research project or case report in
consultation with an advisory committee. Students will present a seminar
on the project and prepare a paper that is expected to be submitted for
publication and for presentation at a professional meeting.

GENET_CN 525-0 Clinical Rotations (1 Unit)
Rotations through the Genetic Counseling Clinic at local hospitals during
the winter and spring quarters of the first year and the fall quarter of the
second year.

GENET_CN 530-0 Summer Clinical Rotation (3 Units)
Two six-week, full-time summer rotations at clinical genetics centers in
the Chicago metropolitan area.
