PSYCHOLOGY (PSYCH)

PSYCH 303-0 Psychopathology (1 Unit)
Understanding the nature of psychological, emotional, and behavioral disorders. Emphasis on current evidence regarding causes and characteristics of these disorders.
Prerequisite: PSYCH 110-0.
Social Behavior Sciences Distro Area

PSYCH 320-0 Intermediate Neuroscience (1 Unit)
Intermediate principles of neuroscience: neurophysiology, neuropharmacology, neuroanatomy, and electrophysiological substrates of psychological processes.
Prerequisites: PSYCH 110-0; 1 biological sciences course.
Natural Sciences Distro Area

PSYCH 324-0 Perception (1 Unit)
Human perception, particularly vision but also hearing, taste, smell, and touch. Biological foundations, development, and disorders of perception. The senses in everyday life.
Prerequisite: PSYCH 110-0.

PSYCH 325-0 Selected Topics in Neuroscience and Psychophysiology (1 Unit)
Applied psychophysiology; brain activity coding of cognitive events, biofeedback, opiate pain control.
Prerequisite: PSYCH 320-0 or PSYCH 221-0 or equivalent.
Natural Sciences Distro Area

PSYCH 333-0 Psychology of Thinking (1 Unit)
Research methods and recent experimental findings for types of human thinking. Students conduct original research.
Prerequisite: PSYCH 228-0.
Social Behavior Sciences Distro Area

PSYCH 340-0 Psychology and Law (1 Unit)
Examines the application of psychology to law, including topics such as the insanity defense, criminal profiling, eyewitness testimony, and interrogation.
Prerequisite: PSYCH 110-0. Taught with LEGAL_ST 350-0; may not receive credit for both courses.
Social Behavior Sciences Distro Area

PSYCH 350-0 Special Topics in Psychology (1 Unit)
Topic to be announced. Prerequisites vary. May be repeated for credit with different topic.

PSYCH 373-0 Decision Making (1 Unit)
Human decision making from both descriptive and prescriptive perspectives. Theories and models of decision making applied to a variety of contexts.
Prerequisites: PSYCH 205-0, PSYCH 228-0.
Social Behavior Sciences Distro Area

PSYCH 378-0 Images of Cognition (1 Unit)
Study of brain processes underlying cognition. Analysis of brain structure and function. Introduction to imaging techniques including fMRI, PET, and ERP.
Prerequisites: PSYCH 205-0; a course in cognition and/or neuroscience (e.g., PSYCH 221-0, PSYCH 228-0, PSYCH 320-0, PSYCH 328-0; COG SCI 210-0) or consent of instructor.

PSYCH 379-0 Neuroscience & Behavior Laboratory (1 Unit)
Classical exercises in the physiological psychology laboratory, including brainwave recording and electrophysiology.
Prerequisites: PSYCH 205-0, PSYCH 325-0.
Natural Sciences Distro Area

PSYCH 390-0 Advanced Seminar in Personality, Clinical, or Social Psychology (1 Unit)
Discussion and critical analysis of research methods and findings in an area of personality, clinical, and/or social psychology. Topics vary. May be repeated for credit with different topic.
Prerequisite: PSYCH 205-0; additional prerequisites may apply.

PSYCH 401-1 Proseminar--Biological & Cognitive Bases of Behavior (1 Unit)
Understanding how brain-imaging techniques apply to the understanding of cognition.

PSYCH 401-2 Proseminar--Social and Personality Bases of Behavior (1 Unit)
Survey of theory and research in the social and personality bases of behavior.

PSYCH 403-0 Proseminar in Clinical Psychology (1 Unit)
Overview of Clinical Psychology.

PSYCH 405-0 Psychometric Theory (1 Unit)
Introduction to principles of measurement, reliability, validity, and scale construction.

PSYCH 406-0 Empirical Foundations of Cognitive- Behavior Therapy (1 Unit)
Survey of contemporary topics in behavior and cognitive-behavior therapy. Mechanisms through which behavioral and cognitive therapy techniques mediate change.

PSYCH 411-1 Clinical Psychology Practicum (0-1 Unit)

PSYCH 411-2 Clinical Psychology Practicum (0-1 Unit)

PSYCH 411-3 Clinical Psychology Practicum (0-1 Unit)

PSYCH 412-1 Assessment Practicum (0-1 Unit)
Didactic and applied instruction in diagnosis of psychological disorders; diagnostic interviewing, organic assessment, and personality assessment. Arranged with the clinical program director. Three-quarter sequence.

PSYCH 412-2 Assessment Pract (0-1 Unit)
Didactic and applied instruction in diagnosis of psychological disorders; diagnostic interviewing, organic assessment, and personality assessment. Arranged with the clinical program director. Three-quarter sequence.

PSYCH 412-3 Assessment Practicum (0-1 Unit)
Didactic and applied instruction in diagnosis of psychological disorders; diagnostic interviewing, organic assessment, and personality assessment. Arranged with the clinical program director. Three-quarter sequence.

PSYCH 413-1 Anxiety: Assessment & Treatment (0-1 Unit)
This practicum will cover the theory, history, empirical evidence, and clinical techniques on the assessment and treatment of anxiety disorders, emphasizing cognitive-behavioral approaches.

PSYCH 413-2 Anxiety: Assessment and Treatment (0-1 Unit)
This practicum will cover the theory, history, empirical evidence, and clinical techniques on the assessment and treatment of anxiety disorders, emphasizing cognitive-behavioral approaches.

**PSYCH 413-3 Anxiety: Assessment and Treatment (0-1 Unit)**
This practicum will cover the theory, history, empirical evidence, and clinical techniques on the assessment and treatment of anxiety disorders, emphasizing cognitive-behavioral approaches.

**PSYCH 414-1 Depression: Assessment and Treatment (0-1 Unit)**

**PSYCH 414-2 Depression: Assessment and Treatment (0-1 Unit)**

**PSYCH 414-3 Depression: Assessment and Treatment (0-1 Unit)**

**PSYCH 415-1 Treatment Practicum: Family and Systems Approach (0-1 Unit)**

**PSYCH 415-2 Treatment Practicum: Family and Systems Approach (0-1 Unit)**

**PSYCH 415-3 Treatment Practicum: Family and Systems Approach (0-1 Unit)**

**PSYCH 416-1 Treatment Practicum: DBT (0-1 Unit)**
Strategies and tactics of dialectical behavior therapy for effectively treating complex, multi-problem, difficult-to-treat populations.

**PSYCH 416-2 Treatment Practicum: DBT (0-1 Unit)**
Strategies and tactics of dialectical behavior therapy for effectively treating complex, multi-problem, difficult-to-treat populations.

**PSYCH 416-3 Treatment Practicum: DBT (0-1 Unit)**
Strategies and tactics of dialectical behavior therapy for effectively treating complex, multi-problem, difficult-to-treat populations.

**PSYCH 420-0 History, Ethics, Diversity, and Consultation in Clinical Psychology (1 Unit)**
This course considers many of the ethical and diversity issues that clinical scientists and therapists encounter; it also considers the historical bases of current psychological research and practice. Two-quarter sequence.
Prerequisites: Permission of instructor.

**PSYCH 421-1 Psychopathology (1 Unit)**
Research and theories on the origins of various forms of psychopathology. Topics include schizophrenia, addictive disorders, psychopathy, personality disorders, eating disorders, psychosexual disorders, depression, and anxiety disorders. Also, issues regarding classification of psychiatric disorders. Two-quarter sequence.

**PSYCH 421-2 Psychopathology (1 Unit)**
Research and theories on the origins of various forms of psychopathology. Topics include schizophrenia, addictive disorders, psychopathy, personality disorders, eating disorders, psychosexual disorders, depression, and anxiety disorders. Also, issues regarding classification of psychiatric disorders. Two-quarter sequence.

**PSYCH 422-0 Child Psychopathology (1 Unit)**
Diagnosis and treatment of various conditions of childhood psychopathology: learning disabilities, phobias, autism, and aggression.

**PSYCH 423-0 Professional Issues in Psychology (1 Unit)**
Survey of ethical, professional, and policy issues in clinical psychology.

**PSYCH 424-0 Behavioral and Neural Basis of Visual Perception (1 Unit)**
Reviews current understanding of the encoding of visual information on the basis of behavioral, neurophysiological, and neuropsychological evidence.
Prerequisites: Permission of instructor.

**PSYCH 425-0 Improving Methods and Practices in Psychological Science: The Replication Crisis and Beyond (1 Unit)**
This course will examine current controversies and new developments in research methods in psychology. The goal of the course is to think critically about how psychological science is conducted and how conclusions are drawn. We will cover both methodological and statistical issues that affect the validity of research in psychology, with a scope that will cover the broad topical range of psychological science. We will discuss the research process from designing a study to how a study gets published. We will also discuss the recent controversy in psychology about the replicability of scientific results.

**PSYCH 428-0 Overview of Health Psychology (1 Unit)**
Overview of research, theories, and methods in health psychology, emphasizing links between the social world and biology.

**PSYCH 430-0 Relationships (1 Unit)**
Conceptual and methodological issues in research in psychopathology and psychotherapy.

**PSYCH 433-0 Research Methods in Clinical Psychology (1 Unit)**
Conducting research in the field of clinical psychology, including statistical methods, research design, and data analysis.

**PSYCH 434-0 Research Methods in Clinical Psychology (1 Unit)**
Conceptual and methodological issues in research in psychopathology and psychotherapy.

**PSYCH 440-0 Self-Regulation (1 Unit)**
This seminar-based course provides an overview of the social psychological literature on self-regulation. It covers the major theoretical orientations and places a particular emphasis on empirical evidence.

**PSYCH 444-0 Memory & Cognit (1 Unit)**
Theories of encoding and retrieval processes, semantic memory, automatic and strategic processes, and memory structure of text.

**PSYCH 450-0 Fundamentals of Statistics (1 Unit)**
Probability, decision rules, and tests of significance, including chi square, t, and F.

**PSYCH 451-1 Statistics in Experimental Design (1 Unit)**
Design and analysis of experiments. Emphasis on analysis of variance techniques.

**PSYCH 451-2 Statistics in Experimental Design (1 Unit)**
Methods of statistical analysis and their applications to experimental design.

**PSYCH 452-0 Psychological Measurement (1 Unit)**
Measurement theories and their implications for the quantification of psychological constructs.

**PSYCH 453-0 Linear Models: Correlation & Regression (1 Unit)**
Measurement theories and their implications for the quantification of psychological constructs.

**PSYCH 455-0 Teaching of Psychology (1 Unit)**
This course is designed to help prepare graduate students in psychology for the role of classroom instructor. Topics that will be discussed include course design, lecturing, using demonstrations, ethics, and teaching writing in psychology.

**PSYCH 456-0 Special Topics in Cognition (1 Unit)**
Current research and theory in cognitive psychology. May be repeated for credit with change of topic.

**PSYCH 461-0 Reasoning and Representation (1 Unit)**
Current theories of reasoning in cognitive science; mental steps in solving problems requiring inductive or deductive inferences. Covers relevant background in logic and artificial intelligence and empirical results on reasoning.
Prerequisite: One course in either cognitive psychology, logic, or artificial intelligence.

**PSYCH 462-0 Cognitive Development (1 Unit)**
Cognitive development in infancy, childhood, and adolescence. Focus on theoretical explanations for cognitive change and development in core domains, including language, space, number, time, and social relations.

**PSYCH 466-0 Analogy and Similarity (1 Unit)**
Psychology of comparison, including theories of similarity, analogy and metaphor in psychology and artificial intelligence; processes of transfer.
comparison in decision making; analogy in mental models and folk
theories; and development of analogy and similarity.

**PSYCH 467-0 Culture, Language, and Cognition (1 Unit)**
Survey of theory, data, and methods in cultural research on language and
cognition. Focus is on empirical research and its relation to cognitive
psychology.

**PSYCH 470-0 Topics in Brain, Behavior, and Cognition (1 Unit)**
Survey of contemporary research in cognitive neuroscience.
Covers investigations of memory, perception, and other aspects of
cognition using many methodologies, including neuropsychology and
neuroimaging.

**PSYCH 471-0 Cognitive Neuroscience (1 Unit)**
Survey of contemporary research in cognitive neuroscience.
Covers investigations of memory, perception, and other aspects of
cognition using many methodologies, including neuropsychology and
neuroimaging.

**PSYCH 481-0 Theories in Social Psychology (1 Unit)**
Introductory overview of social psychology for graduate students, with a
focus on recent and classic theories and their empirical support.

**PSYCH 482-0 Research Methods in Social Psychology (1 Unit)**
Overview of the conceptual and practical aspects of experimental
research in social psychology, including design, questionnaire
development, validity and reliability, and ethical issues.

**PSYCH 483-0 Social Cognition (1 Unit)**
Comprehensive survey of research addressing social aspects of
perception, memory, language, and judgment and their role in social
behavior and outcomes.

**PSYCH 485-0 Psychology of Attitudes (1 Unit)**
Surveys social psychological theory and attitudes. Considers attitude
measurement, attitude structure, attitudes as predictors of behavior, and
attitude change.
Prerequisites: Permission of instructor.

**PSYCH 486-0 Stereotyping and Prejudice (1 Unit)**
Analysis of the psychological causes and consequences of stereotyping
and prejudices with a focus on recent developments in the field of social
psychology.

**PSYCH 488-0 Theories of social and emotional development (1 Unit)**
This graduate-level seminar closely examines theories and research
on social and emotional development. Particular attention is given to
theories and research that address the roles of culture, context, and
marginalization. The course adopts an ecological perspective, examining
how multiple, intersecting levels of micro and macro contexts (parents,
peers, schools, media, culture, stereotypes) shape social and emotional
development and its associations with psychosocial adjustment,
academic success, and health.

**PSYCH 489-0 Topics in Social Psychology (1 Unit)**
Research and theory of current interest. Topics vary. May be repeated for
credit with change of topic.

**PSYCH 490-0 Topics in Clinical/Psychology (1 Unit)**

**PSYCH 492-0 Advanced Topics in Cognitive Development (1 Unit)**
Development of cognitive structures and processes, including learning,
memory, reasoning, language, and conceptual systems. Advanced level.

**PSYCH 494-0 Personality Theory & Research (1 Unit)**
The nature and functions of theory in psychology. Major theoretical
approaches to personality: dynamic, phenomenological, trait, social-
psychological, sociological, and behavioral.

**PSYCH 495-1 Psychological Assessment (1 Unit)**
First Quarter: Introduction to assessment, interviewing, mental status
exam, DSM-III, and objective personality test (MMPI). Second Quarter:
Intellectual/neuropsychological assessment, including intellectual
and achievement tests and report writing. Third Quarter: Projective
assessment, including Rorschach, TAT, miscellaneous projective
techniques, and report writing.

**PSYCH 496-1 Contemporary Psychotherapy (1 Unit)**
First Quarter: Contemporary approaches to individual psychotherapy.
Second Quarter: Contemporary approaches to group psychotherapy and
the treatment of disturbed marital and family relationships. Third Quarter:
Minipracticum.

**PSYCH 497-0 Special Topics in Clinical Psychology (1 Unit)**
Research and theory in clinical psychology. May be repeated for credit
with change of topic.

**PSYCH 499-0 Independent Study (1-3 Units)**
SEE DEPT FOR SECTION AND PERMISSION NUMBERS.

**PSYCH 519-0 Responsible Conduct of Research Training (0 Unit)**

**PSYCH 590-0 Research (1-3 Units)**
SEE DEPT FOR SECTION AND PERMISSION NUMBERS Independent
investigation of selected problems pertaining to thesis or dissertation.
May be repeated for credit.
