TGS GENERAL REGISTRATIONS (TGS)

TGS 370-0 Summer Research Opportunity Program (1 Unit)
The Graduate School's Summer Research Opportunity Program (SROP)
is a campus-based academic and research experience for outstanding
undergraduate students in their sophomore through senior year, who
are underrepresented in their field of study. The program is designed to
prepare the students for graduate study and careers in academia. Each
student participates in a research project that is guided by a faculty
mentor, contributing as a member of a research team. The students
attend weekly workshops, and professional developments that address
issues related to research and graduate education.

TGS 500-0 Funded Doctoral Study (0 Unit)
Available to doctoral students who are primarily doing research and are
receiving funding. Provides full-time status.

TGS 509-0 Foundations of American English and Academic Culture (0
Unit)
This non-credit course provides online English language instruction and
information on adjusting to life at Northwestern for newly matriculated
international graduate students enrolled in the ELP Foundations program.

TGS 512-0 Continuous Registration (0 Unit)
Available to students who completed the program coursework and are
continuing in their degree program (writing a thesis or dissertation and/or
performing research required for the degree), but not receiving University
or external funding. TGS 512-0 is a full time registration intended for
students who are continuing to work in a full-time capacity toward degree
completion.

TGS 514-0 Continuous Registration Exception (0 Unit)
Available to students who are enrolled in a dual or joint degree program
and are enrolled in the non-TGS portion of the dual/joint program.
Requires permission of The Graduate School.

TGS 517-0 Science Writing/Communication (0 Unit)
Skills & Careers in Science Writing is a graduate-level, 9-week writing
and communications course designed for STEM graduate students (PhD
track) at Northwestern. The course focuses on techniques and best
practices for science writing/communication. Students will learn editorial
skills, gain exposure to a breadth of career possibilities, and hone their
writing skills through authentic writing and editorial assignments. The
course will help STEM PhD trainees write clearly and speak confidently
about their own research, providing a solid skills foundation for future
pursuits in science writing and communication.

TGS 588-0 Resident Masters Study (0 Unit)
Available to master's degree students who are primarily doing research
related to a master's thesis or project. Provides full-time status, but
allows no accumulation of credit or residency toward the master's
degree. This registration requires The Graduate School's permission.
