CHEMISTRY BA/MS

Students who have done outstanding work during their first three years and have a professional interest in chemistry may apply for the BA/MS program when they are within 4 courses of completing undergraduate degree requirements. By the end of the third year the applicant should have completed nearly all of the 300-level course requirements, all or nearly all of the Weinberg College requirements (https://catalogs.northwestern.edu/undergraduate/arts-sciences/#schoolrequirements), and at least 1 term of independent study.

To fulfill the MS requirements, students must take 9 graduate courses and submit a senior thesis. Applicants should submit to the director of undergraduate studies in chemistry a course plan for the fourth year, a brief description of proposed research, an unofficial transcript, and a letter of support from the research adviser. For more information see Accelerated Master’s Programs (https://catalogs.northwestern.edu/undergraduate/dual-graduate-undergraduate-degrees).

Students interested in pursuing the BA/MS program in Chemistry should contact the Director of Undergraduate Studies in Chemistry (https://www.chemistry.northwestern.edu/undergraduate/programs/advising-research.html).
