ENVIRONMENTAL SCIENCES MAJOR

The major in environmental sciences has two tracks: one in science and one in economic policy. The tracks share foundation courses in science and math and the core curriculum. Advanced coursework differs by track.

Students should plan their academic paths with an environmental sciences adviser soon after identifying their interests in the major. Foundation courses, many of which are prerequisites for advanced courses, should be completed as soon as possible. Students are encouraged (but not required) to take MATH 230-1 Multivariable Differential Calculus or the General Physics sequence PHYSICS 135-1, PHYSICS 135-2, PHYSICS 135-3, especially if they envision graduate training. Premedical students and students interested in advanced study in environmental biology are advised to take the full 200-level sequence in biological sciences and 2 additional quarters of organic chemistry.

Students must also complete the Undergraduate Registration Requirement (https://catalogs.northwestern.edu/undergraduate/requirements-policies/undergraduate-registration-requirement) and the degree requirements of their home school.

Course | Title
--- | ---
3 core courses: | 
ENVR_SCI 201-0 | Earth: A Habitable Planet
ENVR_SCI 202-0 | The Health of the Biosphere
ENVR_SCI 203-0 | Humans and the Environment
8 advanced studies courses (see below) (p. 1)

Foundations in Science and Math (Units depend on chemistry and mathematics sequences taken; courses may double-count with another major or a minor)

Students should complete all of the following courses in their first two years:

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>
</tr>
</thead>
</table>
| MATH 220-1 | Single-Variable Differential Calculus
or MATH 218-1 | and Single-Variable Calculus with Precalculus
& MATH 218-2 | and Single-Variable Calculus with Precalculus
| MATH 220-2 | Single-Variable Integral Calculus
or MATH 218-3 | and Single-Variable Calculus with Precalculus
| CHEM 110-0 | Quantitative Problem Solving in Chemistry
& CHEM 131-0 | and General Chemistry 1
& CHEM 141-0 | and General Chemistry Laboratory 1
& CHEM 132-0 | and General Chemistry 2
& CHEM 142-0 | and General Chemistry Laboratory 2
or CHEM 151-0 | and Accelerated General Chemistry 1
& CHEM 161-0 | and Accelerated General Chemistry Laboratory 1

& CHEM 181-0 | and Advanced General Inorganic Chemistry
& CHEM 172-0 | Laboratory
& CHEM 182-0 | and Advanced General Physical Chemistry
and Advanced General Physical Chemistry Laboratory

5 courses chosen from the following, with at least 2 from the same group. (Chemistry and physics labs do not count toward the 5-course total.)

Advanced Studies Courses

See below for lists of approved science courses (p. 1) and environment and society courses (p. 2). See Environmental Sciences webpage (https://www.envsci.northwestern.edu/undergraduate/major-requirements.html) for updates to these lists.

- At least 6 must be at the 300 level.
- Students in the science track choose 6 from the science list and 2 from the environment and society list.
- Students in the policy track take:

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>
</tr>
</thead>
</table>
| ECON 281-0 | Introduction to Applied Econometrics
| ECON 310-1 | Microeconomics
| ECON 371-0 | Economics of Energy
or ECON 372-0 | Environmental Economics
or ECON 373-0 | Natural Resource Economics

5 additional courses, including 4 from the science list

- Up to 2 ENVR_SCI 399-0 Independent Study research courses may be substituted for courses on the science list.
- Students who wish to double-major in Economics and Environmental Sciences are encouraged to do the science track in Environmental Science. Students doing the policy track must take extra 300-level economics classes to fulfill the requirements for both majors.

**Honors in Environmental Sciences**

Students with strong academic records and an interest in pursuing honors should approach a faculty member by the end of junior year to discuss possible projects; these may involve field, experimental, or computational research. Research is completed during 2 quarters of ENVR_SCI 399-0 Independent Study, which may count toward major requirements. Students then prepare a written thesis. Those whose theses and grades meet program criteria are recommended to the college for graduation with honors. For more information consult the program director and see Honors in the Major (https://catalogs.northwestern.edu/undergraduate/arts-sciences/#academicoptionstext).
