## Minor Requirements (7 units)

### 2 core courses

All students complete:

- **GBL_HLTH 201-0**: Introduction to Global Health ¹

Plus one of the following: ²

- **GBL_HLTH 302-0**: Global Bioethics
- **GBL_HLTH 320-0**: Qualitative Research Methods in Global Health
- **GBL_HLTH 318-0**: Community-based Participatory Research Course

### 2 additional GBL_HLTH courses ³

3 elective courses. Elective credits can be fulfilled by pre-approved health-related courses from various departments, as listed on the GHS major page and program website. Courses taken abroad can be counted as electives provided they are NU or NU-affiliated study abroad programs and the courses have been pre-approved for GHS elective credit. Study abroad courses taken that are not NU affiliated need prior approval from the DUS.

¹ GBL_HLTH 301-0 (Introduction to International Public Health) from Spring 2022 or earlier may be applied in lieu of GBL_HLTH 201-0.

² GBL_HLTH 390-0 may be used in substitution when the topic is either (Re)Mixing Qualitative Methods, or Quantitative Methods: Turning Numbers into a Story. If Community Based Participatory Research was completed as a topic under GBL_HLTH 390-0 prior to Spring 2023, rather than as GBL_HLTH 318-0, that may also be applied.

³ GBL_HLTH 399-0 Independent Study and courses taken abroad may not be counted toward this requirement.

### Note:

- Students may elect to study abroad (https://globalhealthstudies.northwestern.edu/academic-programs/study-abroad/) as part of their Global Health Studies curriculum.
- A list of eligible elective courses can be found on the Global Health Adjunct Major (https://catalogs.northwestern.edu/undergraduate/arts-sciences/global-health-studies/global-health-studies-adjunct-major/) page of this Catalog. Refer also to the Global Health Studies website for updates and occasional offerings.
