## MATHEMATICS MINOR

## Minor requirements

(Units depend on basic courses.)
The mathematics minor consists of basic courses and 6 upper-level courses.

## Basic Courses

Students may count basic courses toward the requirements of more than one major, minor, or program.

## Upper-level Courses

Students must complete 6 upper-level mathematics courses. Upper-level courses are courses at the 300 level or above.

The 6 upper-level courses must include at least 1 of the following two-course sequences:

| Course | Title |
| :--- | :--- |
| MATH 310-1 | Probability and Stochastic Processes |

With prior approval from the Director of Undergraduate Studies (https://
www.math.northwestern.edu/undergraduate/advising/), the upper-
level courses may include as many as 2 courses offered by other
departments with substantial mathematical content or that focus
on serious applications of mathematics. No such course may count
simultaneously toward the requirements of another major or minor.
