The minor in psychology reflects the view that the undergraduate study of psychology should combine a methodological core with breadth of content. The minor therefore requires the introductory course (PSYCH 110-0 Introduction to Psychology), the 2 central methods courses (PSYCH 201-0 Statistical Methods in Psychology and PSYCH 205-0 Research Methods in Psychology), and at least 1 course from each of the two main content areas defined for the major. Note that first-year seminars do not count towards the minor. In addition to the courses specifically listed below, all other psychology department courses can also count toward the 4 additional courses for the minor.
