COMPUTER SCIENCE MINOR (MCCORMICK SCHOOL OF ENGINEERING)

The department offers a minor in computer science for students who wish to develop stronger competence in computer science while pursuing a degree in another field. The minor will provide essential knowledge for all computer scientists as well as exposure to every critical subfield of the discipline.

Students should begin the minor before the end of their first quarter of their junior year. Students must submit a completed petition form for the minor to the Undergraduate Engineering Office before their last quarter as an undergraduate. At least 5 courses used for the minor may not be used (double-counted) to fulfill requirements in the student’s 16-unit major program.
