COMPUTER SCIENCE MINOR (MCCORMICK SCHOOL OF ENGINEERING)

The department offers a minor in computer science for students who wish to develop stronger competence in computer science while pursuing a degree in another field. The minor will provide essential knowledge for all computer scientists as well as exposure to every critical subfield of the discipline.

Students should begin the minor before the end of their first quarter of their junior year. To declare the McCormick Computer Science minor, students should submit the minor declaration form in MAS (McCormick Advising System) by the end of their junior year. At least 4 courses used for the minor may not be used (double-counted) to fulfill requirements in the student's 21-unit major program.
