**GEN_000 ENGINEERING**

**Introductory and General Engineering Courses**

**Required Introductory Courses**

**DSGN 106-1 Design Thinking and Communication (0.5 Unit)** Integrated introduction to the user-centered design process and technical communication. Students will address challenges proposed by project partners by identifying unmet needs, conducting research, generating and evaluating potential solutions, and finally, presenting a final design concept with supporting documentation. Students also enhance their abilities in equitable teamwork, project management, fabrication skills, and producing written, oral, graphical, and interpersonal communication. One lecture, two section meetings, and lab. Co-registration with ENGLISH 106-1 required. Primarily intended for first-year engineering students.

**GEN_ENG 205-2 Peer-Guided Study Group: Engineering Analysis II (0 Unit)** Peer-guided study group for students enrolled in GEN_ENG 205-2. Meets weekly in small groups, along with a peer facilitator, to collaboratively review material, work through practice problems, and clarify course concepts. Enrollment optional. Graded S/U.

**GEN_ENG 205-3 Peer-Guided Study Group: Engineering Analysis III (0 Unit)** Peer-guided study group for students enrolled in GEN_ENG 205-3. Meets weekly in small groups, along with a peer facilitator, to collaboratively review material, work through practice problems, and clarify course concepts. Enrollment optional. Graded S/U.

**GEN_ENG 205-4 Peer-Guided Study Group: Engineering Analysis IV (0 Unit)** Peer-guided study group for students enrolled in GEN_ENG 205-4. Meets weekly in small groups, along with a peer facilitator, to collaboratively review material, work through practice problems, and clarify course concepts. Enrollment optional. Graded S/U.

**GEN_ENG 206-1 Honor Engineering Analysis (1 Unit)** Introduction to linear algebra from computational, mathematical, and applications viewpoints. Computational methods using a higher-level software package such as MATLAB.

**GEN_ENG 206-2 Engineering Analysis II (1 Unit)** Covers topics addressed in GEN_ENG 205-2 at a deeper level. Intended for students with demonstrated strength in mathematics, computer programming, and/or physics. Prerequisite: consent of instructor.

**GEN_ENG 206-3 Engineering Analysis III (1 Unit)** Dynamic behavior of the elements. Modeling of mechanical (both translational and rotational), electrical, thermal, hydraulic, and chemical systems composed of those elements. Prerequisite: C- or better in GEN_ENG 205-1; MATH 220-1.

**GEN_ENG 206-4 Engineering Analysis IV (1 Unit)** Solution methods for ordinary differential equations, including exact, numerical, and qualitative methods. Applications and modeling principles; solution techniques. Prerequisites: C- or better in GEN_ENG 205-2; MATH 220-2.

**GEN_ENG 206-5 Honors Engineering Analysis IV (1 Unit)** Covers topics addressed in GEN_ENG 205-4 at a deeper level. Intended for students with demonstrated strength in mathematics, computer programming, and/or physics. Prerequisite: consent of instructor.

**Optional General Engineering Courses**

**GEN_ENG 190-0 Engineering Freshman Seminar (0-1 Unit)** Broad engineering or interdisciplinary subjects of current interest.

**GEN_ENG 205-MG-2 Midquarter Study Group: GEN_ENG 205-2 Engineering Analysis II (0 Unit)** Peer-guided study group for students enrolled in GEN_ENG 205-2. Meets weekly, starting at midquarter, in small groups along with a peer facilitator, to collaboratively review material, work through practice problems, and clarify course concepts. Enrollment optional. Graded S/U.

**GEN_ENG 205-SG-1 Peer-Guided Study Group: Engineering Analysis I (0 Unit)** Peer-guided study group for students enrolled in GEN_ENG 205-1. Meets weekly in small groups, along with a peer facilitator, to collaboratively review material, work through practice problems, and clarify course concepts. Enrollment optional. Graded S/U.

**GEN_ENG 205-SG-2 Peer-Guided Study Group: Engineering Analysis II (0 Unit)** Peer-guided study group for students enrolled in GEN_ENG 205-2. Meets weekly in small groups, along with a peer facilitator, to collaboratively review material, work through practice problems, and clarify course concepts. Enrollment optional. Graded S/U.

**GEN_ENG 205-SG-3 Peer-Guided Study Group: Engineering Analysis III (0 Unit)** Peer-guided study group for students enrolled in GEN_ENG 205-3. Meets weekly in small groups, along with a peer facilitator, to collaboratively review material, work through practice problems, and clarify course concepts. Enrollment optional. Graded S/U.

**GEN_ENG 220-1 Analy/Comp Graph (0.5 Unit)** Introduction to AutoCAD, geographic information systems (GIS), and electronic surveying and measuring.

**GEN_ENG 220-2 Analy/Comp Graph II (0.5 Unit)** Introduction to AutoCAD, geographic information systems (GIS), and electronic surveying and measuring.

**GEN_ENG 295-0 Special Topics in Engineering (1 Unit)** Intermediate-level topics suggested by students or faculty members and approved by the curriculum committee.

**GEN_ENG 355-0 Domestic Study Affiliated (0 Unit)** Fulltime registration in an academic program in the continental United States that is affiliated with Northwestern. Upon successful completion of the program, registration is replaced with credits transferred from the affiliated institution.

**GEN_ENG 395-0 Special Topics in Engineering (1 Unit)** Topics suggested by faculty and approved by the curriculum committee.

**GEN_ENG 397-0 Selected Topics in Engineering (0.5 Unit)** Topics of limited scope as suggested by faculty and approved by the curriculum committee.

**GEN_ENG 399-0 Independent Study (1 Unit)** Independent study on an engineering subject supervised by a faculty member and concluding with a final report.

**Murphy Institute General Engineering Courses**

- Participation in the Murphy Institute and its courses is by invitation only. Additional information can be found on the Murphy Institute website: www.mccormick.northwestern.edu/academics/undergraduate/programs/honors-and-combined-degrees/murphy-institute/ (https://www.mccormick.northwestern.edu/academics/undergraduate/programs/honors-and-combined-degrees/murphy-institute/)

**GEN_ENG 195-1 Engineering Dialogue I (0.33-0.34 Unit)** Weekly seminar addressing subjects of interest in engineering, design, engineering policy,
and entrepreneurial activities. For participants in the invitation-only Murphy Institute Scholars Program. May be repeated.

**GEN_ENG 196-1 Engineering Discourse I (0 Unit)** Noncredit counterpart to GEN_ENG 195-1.

**GEN_ENG 195-2 Engineering Dialog II (0.33-0.34 Unit)** Weekly seminar addressing subjects of interest in engineering, design, engineering policy, and entrepreneurial activities. For participants in the invitation-only Murphy Institute Scholars Program. May be repeated.

**GEN_ENG 196-2 Engineering Discourse II (0 Unit)** Noncredit counterpart to GEN_ENG 195-2.

**GEN_ENG 195-3 Engineering Dialog III (0.33-0.34 Unit)** Weekly seminar addressing subjects of interest in engineering, design, engineering policy, and entrepreneurial activities. For participants in the invitation-only Murphy Institute Scholars Program. May be repeated.

**GEN_ENG 196-3 Engineering Discourse III (0 Unit)** Noncredit counterpart to GEN_ENG 195-3.

**GEN_ENG 195-4 Engineering Dialog IV (0.33-0.34 Unit)** Weekly seminar addressing subjects of interest in engineering, design, engineering policy, and entrepreneurial activities. For participants in the invitation-only Murphy Institute Scholars Program. May be repeated.

**GEN_ENG 196-4 Engineering Discourse IV (0 Unit)** Noncredit counterpart to GEN_ENG 195-4.

---

**Engineering Career Development**

The mission of Engineering Career Development (ECD) is to provide all McCormick students with the tools necessary for lifelong career management and to forge relationships with employer partners for this end.

Engineering Career Development offers students:

- Courses and workshops designed to aid students in preparing and conducting a job search
- Personalized, one-on-one career advising
- Employer events and on campus interviewing opportunities
- Work integrated learning programs that allow students to maintain their student status while enrolling in zero-credit, zero-tuition courses for co-op, internship, research, and service learning experiences.

For more information visit: [www.mccormick.northwestern.edu/career-development/](https://www.mccormick.northwestern.edu/career-development/)

---

**Engineering Career Development Course Offerings**

**Introductory Coursework**

**CRDV 301-0 Introduction to Career Development (0 Unit)** Course preparing students for the Walter P. Murphy Cooperative Engineering Education Program, internships, and full-time employment. It includes units on job-search skills, self-assessment, transition to the workplace, workplace-management issues, and transition back to school.

**Cooperative Engineering Courses**

- All courses in the CRDV 310 sequence are 0 credit.
- Sequence of courses covering the work terms of students in the Walter P. Murphy Cooperative Engineering Education Program.

**Engineering Internship Courses**

- All courses in the CRDV 311 sequence are 0 credit.
- Series of courses designated for students seeking University recognition of their internship experience, or participating in an approved internship during the regular academic year.

**Engineering Projects in Service Learning Courses**

- All courses in the CRDV 312 sequence are 0 credit.
- CRDV 312 courses require students to engage in an engineering-related, full-time community service project under the guidance of an appropriate faculty member, agency supervisor or mentor.

**Undergraduate Engineering Research Courses**

- All courses in the CRDV 313 sequence are 0 credit.
- The CRDV 313 course sequence allows students to maintain half-time enrollment at Northwestern while engaged full-time in an University-based research project under the supervision of a faculty research sponsor. Students are evaluated by ABET criteria, the same as those in the Walter P. Murphy Cooperative Engineering Education Program and the Professional Engineering Internship Program.
Engineering Office Of Personal Development

The Engineering Office of Personal Development (EOPD) strives to cultivate a student body of engineers who are:

• More self-aware
• Empowered to take ownership of and responsibility for their learning
• Knowledgeable about the opportunities available to them, and how those opportunities connect to their personal goals
• Highly resilient and possess the scope of vision to take on complex problems

For more information visit www.mccormick.northwestern.edu/personal-development/ (https://www.mccormick.northwestern.edu/personal-development/)

Engineering Office of Personal Development Course Offerings

PRDV 101-1 McCormick First-Year Experience (0 Unit)  A series of peer-led small group discussions for first-year engineering students, covering topics like higher education culture, time management, strategies for success in courses, and mindset. Attendance is required.

PRDV 101-2 McCormick First-Year Experience (0 Unit)  A series of peer-led small group discussions for first-year engineering students covering topics such as academic strategies, choice of major, exploration of non-major options, and health and well-being. Attendance is required.

PRDV 300-0 Designing Your Life (1 Unit)  This course approaches life as a series of design projects to help students craft a total life. It includes seminar-style discussions, role-playing, short writing assignments, hands-on making, guest speakers, and individual mentoring and coaching. Prerequisite: Reserved for Juniors and Seniors.

PRDV 325-0 Emotional Intelligence 101 - Managing Yourself, Maximizing Your Potential (1 Unit)  Introduction to emotional intelligence theories and concepts; provides practical tools for building skills in stress management, intrapersonal and interpersonal awareness, peak performance, resilience/adaptability, and general mood.

PRDV 335-1 Engineering Improv I: The Art of Allowing (0.5 Unit)  Start anywhere, remember you are not the most important person in the scene, and say yes. Through these and other improv techniques, students learn to tackle unexpected obstacles, building skills that can be leveraged in both academic and non-academic contexts to face challenges with resilience.

PRDV 335-2 Engineering Improv II: The Art of Application (0.5 Unit)  This course builds on Improv I and takes students deeper into concepts and applications. Prerequisite: PRDV 335-1 Engineering Improv I.
