Aerospace Studies

Northwestern students may participate in the programs of the Air Force Reserve Officers Training Corps through a cross-enrollment agreement with the Illinois Institute of Technology (IIT). AFROTC consists of four years of aerospace studies classes and a corresponding leadership laboratory where students apply leadership skills, demonstrate command and effective communication, develop physical fitness, and practice military customs and courtesies. Credits earned in approved aerospace studies courses at IIT may be counted toward degree requirements within the limits of the Northwestern school in which the student is registered. Students who participate in AFROTC may be eligible for federal AFROTC scholarships that may partially or fully pay tuition at Northwestern. Complete information may be obtained from:
